

4 WAYS TO PREPARE YOUR HOME FOR STORMS

The heavy rainfall, high winds and lightning associated with severe storms can present a serious risk to your home and family. Use these tips to ensure that your home is ready to weather the storm:

1

Update your home inventory in case a storm causes damage to your home or possessions.

2

Inspect outside your home for any damage that could contribute to a water leak.

3

Prepare a disaster kit & create shelter & evacuation plans.

4

Call FBinsure at 508-824-8666 to review your policies & ensure that you're financially protected.
